

Connecting Caregivers, Children & Families

A child-led, digital tool that encourages interactions and builds connections between home and school.

Engages Families

A tool that helps children to communicate about their day at school with the adults important to their lives.

Builds Relationships

Message from Me strengthens the relationships between families and the school community through the use of photos and audio messages.

Goals

- Engage families in the educational experience and spark conversations
- Foster healthy adult-child relationships
- Support children's development
 - build communication and language skills
 - enhance self-esteem and independence
 - promote digital well-being

Impact

Children develop skills that help them to be:

- collaborative, curious, and persistent
- creative and innovative thinkers
- flexible problem-solvers

Educators engage in hands-on professional development that supports teaching practices when using digital technologies with children.

Families receive messages from their child about daily activities by phone and email.

Trying Together exclusively provides the professional development for Message from Me.
